Bloom Time June—August  
Color Pink Height 4 feet

Benefits: Pollinators, Butterflies, Birds, Deer Resistant  
Height: 3'-6'  
Blooms: Aug, Sept, Oct  
Color: Purple

## Live Plants

- Live plants from nursery will come as small plugs; cells are 5" deep x 2" wide at top or 4.5" deep x 2" Cone.
- Immediate care: remove plants from container as soon as possible and water thoroughly.
- Plant in the ground or a larger pot.
- Keep area around plants weed free, especially during the first growing season.
- Watering is important during the first growing season. Make sure the plants do not

go dry for the first 3-6 weeks; water deeply to allow formation of deep drought and frost resistant roots. Once established, native plants can withstand extreme weather.
